

Cassie Chan (Medina)

Godwin Heights High School
Heads Girls Varsity Basketball Coach

My coaching career began at Godwin as a 7th grade coach in 2007.

I went to be the Freshman coach at Hopkins for a year.
Coached Rogers High School Girls Varsity in 2010

I then came home where I went to high school at Godwin Heights.

I started my coaching career here at Godwin 10 years ago in 2012. My 1st couple years were rough trying to change my players' mindsets and build their confidence. They were ok with losing but I was not. I believe my 1st year I won 5 games it was rough but I still believed. No matter how much we lost by I never stopped coaching and my players NEVER gave up. They fought all the way until the end of every game.

Years go by and we are winning more and more games; I was building a program here at Godwin. I had players that believed in me just as much I believed in them.

2016 we get 2nd in our conference. Yet no one respected us. At least not our GIRLS team at Godwin. I ran with that for the next year.

"No one respects you no one wants to lose to Godwin! We need to demand respect" I used that ALL season in 2017.

That year we shared the conference title with Calvin. The 1st conference title ever at Godwin and I was proud to be a part of it. We worked over time that year only having 7 girls on our team; pressing dang near the whole game. We also broke the winning record at Godwin which was 17 that year. It was funny I really never looked at our record until someone said we tied the record and I was shocked. We were just so busy working.

Here I am still at Godwin looking to get one more title before I leave here.
