

Alex began officiating in 2002 while a junior in high school where he worked games at Rockford Middle School. After graduating HS, Alex attended Lake Superior State and was a member of the basketball team. While redshirting his first year at LSSU he worked high school games and officiated women's team scrimmages and exhibition games. He worked in multiple high school district and regional games. Alex also officiates women's NCAA DII, DIII, NAIA, and JUCO games. He has worked the conference tournament in DII, DIII, and NAIA as well as the NCAA first and second rounds in DIII. He worked the National Christian College Athletic Association Championship game in 2022.

Alex also officiates football and worked the 2020 D4 final at Ford Field. One of his greatest accomplishments in officiating was being President of the WMOA and helping, along with many others, present the case to the OK Conference as to why officials should receive a substantial pay increase. This resulted in a pay increase of 50% for both basketball and football. Alex says, "this was the effort of a great number of officials in the Grand Rapids area and I was lucky enough to be representing the WMOA (both football and basketball) during the presentation process. It was a huge win for officials all over the state!"
